The Opera House.

The Opera House has been recently leased by Messrs. Harry Gump and Jno. A. Mathes, who at an early date will so reconstruct and change it as to secure the most modern conveniences and the best attractions to be had. The house incomplete and out of repair, is to undergo remodeling. The entrance to the stage is to be changed to the rear and that of the gallery to the outside. The walls are to be repapered and new lighting advantages added, such as electric foot-lights, chandeliers, etc. The house, in fact, will undergo all manners of revision and on these conditions and intentions a number of first-class attractions have already booked. The young men having the matter in charge deserve much credit and encouragement in their venture, which when completed will be an invaluable acquisition to the city.

WARM WEATHER HAS COME AT LAST.

The Best Season in the Year to Treat Chronic Catarrh.

Understanding that a great number of people have been cured of chronic catarrh by taking Per-na during the past cold season, yet it cannot be denied that the cold, wet, backward spring has retarded many cures, and in some cases actually prevented a cure. But, after the usual delay, summer has come at last, and now is the time for all catarrh sufferers to begin a systematic course of treatment for this disease. The greatest difficulty in the way of treating chronic catarrh is that the patient is so liable to catch cold during the treatment, and thus delay a cure. This liability at this season of the year is, in a great measure, removed, and no one should neglect the opportunity to be given treatment.

The proper way to begin treatment for chronic catarrh is to take a tablespoonful of Per-na before each meal and at bedtime. This dose should be increased so that in one month the patient will be taking two tablespoonfuls at each dose; at which time a report of the case by letter should be made to Dr. Hartman, Columbus, Ohio, and he will advise further.

Every patient should have a copy of The Family Physician No. 2, which is a 32 page pamphlet, giving a complete description of the cause, symptoms and cure of chronic catarrh. Sent free to any address. wtkly-sun

Chicago as Written Up by a French Paper.

A French newspaper published at Nantes furnishes its readers with a very graphic, if not accurate, description of Chicago. "It is situated at the foot of the falls of Niagara, and receives the waters of the great lakes. In no part of Europe will you find so great a city. Its boulevards are regular and as straight as its streets, which seem to have been ruled with a straight edge, and in it all railroads have termini. One is almost frightened by the height of the buildings, in which all styles of architecture meet without confusion. About 60 years ago we visited the Falls of Niagara, and our first stop was naturally at Chicago. Excellent hotels, very attractive people were there; and as we took a rapid walk along the banks of the 'Father of Waters' we were obliged continually to avoid meeting the descendants of the companion of St. Anthony (pigs). Now these noisy animals have their own quarter, where they are sold, and they no longer by their squeals disturb the public peace."

Cruel Father.

It is not often that the father of a would be poet commends the publisher who declines his son's poems, but this rare man appears in the "Memoir of John Murray," the eminent London publisher.

A young Quaker sent him a batch of poems. Mr. Murray wrote him a letter declining to publish the poems, which fell into the hands of the poet's father, of the same name, but without the word "Juni." The father answered:

"Esteemed friend, I feel very much obliged by thy refusing to publish the papers sent thee by my son. I was entirely ignorant of anything of the kind, or should have nipt it in the bud. On receipt of this, please burn the whole that was sent thee, and at thy convenience inform me that it has been done. With thanks for thy highly commendable care, I am respectfully thy friend,
JOHN PROCTOR.
